

High Quality Trasparent Protective Head

Display Is Intutive and Clear Waterproff and dustproof design and
efictive protection of internal circuits

Protected Electrical Interface

ABS Plastic Material , Impact and suitable
for Acids and Harsh environment

High Quality Sealing Ring

The Measuring Range 0-6 to 0-20 Meter

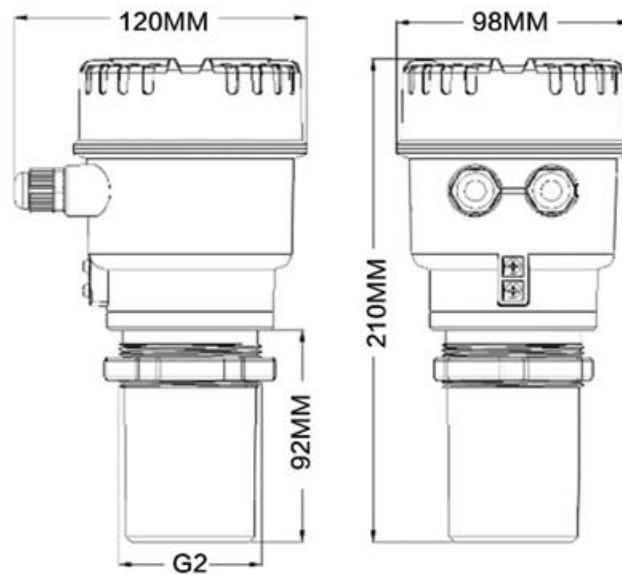

Good Quality Head Prob Design

Technical Specification	parameter
Measuring range	0 ~ 15m (customized according to the actual measurement range)
Ranging accuracy	0.5 (standard condition)
pressure	normal pressure
Analog output	4 ~ 20mA
ambient temperature	-20°C ~ + 60°C
blind spot	0.35m ~ 0.6m
Ranging resolution	1mm
the meter shows	Built-in LCD display
Supply voltage	DC24V
Protection class	IP65

Dimension

PRODUCT INSTALLATION
